- Color proofs are available upon request at \$49.00 each.
- Fax proofs are included for all orders and must be signed and completed prior to running job.
- We can not proceed on a job until we have signed proofs.

IMPRINTING COLORS: We print at 150 Line Screen for the highest quality reproduction. This allows us to achieve full-color-photographic quality reproduction. All tattoos are printed in four color process, so we can provide a full range of color. We provide CMYK color equivalents of PMS colors. (Check *Pantone® Process Color Imaging Guide* for PMS/CMYK percentages.) A black imprint on the back of the tattoo is supplied at no charge, including the required application/removal directions and ingredients. We can include any copyright information and/or logos you request. Please note that all tattoos are printed wrong-reading and will be right-reading when applied.

SPECIAL TATTOO INKS & PRINTING: All J&M, Inc. tattoos are produced using only non-toxic inks containing pigments that are FDA certified for use in cosmetics. Our tattoos meet all current FDA requirements. These inks may appear more subtle and inconsistent in color than conventional printing inks.
